March 2010 Newsletter

Thoughts from the Chairman!

Another season has almost run its course, so its time to look to the future. A big change next season is the introduction of Individual Player Registration with the E.T.T.A.. This means that all players must be registered, before they can legally play, so club officials must be on the ball and ensure that they have all the required details of their players in plenty of time. It will no longer be any good leaving things to the last minute!! Further details will follow when available from the E.T.T.A.
